AutoVere
OFFICIAL PARTNER

PARTNER PROGRAMME
autovere.com · KM TECH LABS

Become an AutoVere Partner

AutoVere shows drivers what a journey really costs before they leave home — official tolls, vignettes, fuel, charging and ferries, calculated for their own vehicle across Europe, the USA and Canada. As a partner, you can give the people you look after a genuinely useful benefit, with no technical work and no cost to you.

25% off AutoVere Pro for your members and customers

A real, everyday benefit they can use on the very next trip. You decide freely what — if anything — you offer your own customers in return.

Who it is for

- Motoring clubs and driver organisations
- Motorhome and caravan associations
- Independent new- and used-car dealers
- EV owner groups and charging communities
- Touring clubs and travel organisations
- Rental and fleet businesses

How it works — three short steps

1 We agree the partnership
A short conversation by email. No contracts to negotiate, no set-up fee.

2 You receive your partner kit
Your unique member discount code, the official partner badge and ready-made wording.

3 Your members save
They use the code at autovere.com and get 25% off AutoVere Pro. We handle everything else.

Why partners choose it

- A benefit people actually use, not another discount card.
- Nothing to build, host or maintain — we do the work.
- No cost and no risk for your organisation.
- Clear, honest numbers your members can trust.

What we stand for

- Transparent: every toll and vignette links to the official portal.
- Never a reseller — we never add a markup or sell passes.
- Official toll, vignette and charging data, reviewed and dated.
- KM TECH LABS

Let's talk about a partnership

Tell us a little about your organisation and your members — we will reply personally with the partner code, the badge and everything you need to get started.
